About The Course

The course will take 6 weeks. There will be problem-solving sessions after the class each week where you can ask questions about the previous problem sets and solve examples about the current week's topic.

Three problem sets and one programming contest will be assigned in total. The assignments are optional but highly recommended.

Date	Topic	Assignment
30.10.2023	Introduction	-
06.112023	Primitive Data Types + Control Flow	Problem set 1
13.11.2023	Containers, Iterators and Generators	Problem set 2
20.11.2023	Functions + File I/O	Contest
27.11.2023	Object Oriented Programming	Problem set 3
04.12.2023	Wrap-up	-
